Medium Duty Kit – 9 Piece Outfit MDWC150

This kit contains the 9 components most often replaced in an existing oxyacetylene outfit. Add these items to your regulators, hose, goggles and cylinders to cut, weld and heat. For home, farm, industry and construction use.

KIT CONTAINS:

- Medium Duty Cutting Attachment
- 3-101A-0 Cutting Tip
- Medium Duty Torch Handle with Check Valves
- #0, #1, #2 Welding Elbows
- Universal Mixer Striker
- Replacement Flints
- Tip Cleaner

CUT-SAFE OUTFITS

Our new medium duty cutting attachment, CA200 uses tip mix technology to give you the safest cutting attachment possible. It uses a new, medium size tip mix cutting tip, the CT200 series. The welding handle fits the majority of medium duty welding, heating and specialty tips in use today as it is a standard medium duty V style handle. Smaller medium duty regulators are available to fit standard CGA cylinders and have more than enough capacity to satisfy all your cutting and welding needs.

Operator Safety!

The CT200 Medium Duty Tip Mix Cutting Tip is "NEW TO THE INDUSTRY"! No more mechanical mixer that can fail. The gases are mixed in the tip which has no moving parts! The farther the gases are mixed away from the cylinders the safer the torch!

PLUMBING, HVAC, AND REFRIGERATION

TOOLS

General Shop Applications

HT89 HAND TORCH

Ideal for small jobs in tight areas where access is limited. It is the perfect tool for:

- Plumbing
- HVAC & Refrigeration
- Auto body repair
- Lightweight, portable flame tool
- Electric Ignition
- Operates with Propane or MAP//Pro™ [Propylene] without changing the tip
- Stable flame, operates even in windy conditions
- 360° Swivel tip
- Braze copper, thaw tubing and frozen pipes

HT29 PENCIL FLAME TORCH

Is ideal for small jobs in tight areas where access is limited. It's the perfect tool for:

- Soldering
- Loosening Rusty Nuts & Bolts
- Thawing frozen pipes
- Light Duty Maintenance
- Lightweight, easy-to-operate
- All brass construction
- Operates with Propane or MAP//Pro™ [Propylene] without changing the tip
- Adjustable pencil point flame
- Fits all disposable CGA600 cylinders
